Dated 16th December 1952.

ROC.NO.3934-IV/51.

From

Sri V.R. Rajagopalan, GMVC.,Dip.,Bact.,(Manchester),
Director of Animal Husbandry, Madras.

To

The Deputy Secretary to Government,
Development Department, Madras.

Dev.C.No 145982 Pt.II/52
26-12-52

Sir,

Sub: Buildings - District Livestock Farm South Kanara - Koila - Extension of Male Stock shed - Sanction requested.

..

The present male stock shed at the District Livestock Farm, South Kanara, Koila can accommodate only 10 pairs of work cattle. Besides this, there are 8 Breeding Bulls to be housed. They are now accommodated in a portion of the Milch Cattle Shed. This is not a satisfactory arrangement. It is therefore proposed that the existing male stock shed be extended to accommodate 20 more animals.

2. The Superintendent, District Livestock Farm, South Kanara, Koila has submitted an estimate for Rs.2,800/- for this item of work. The expenditure is debitable to "41.Veterinary g.Works - Cattle breeding Farms" and it will be met by reappropriation from savings or by applying for supplementary grant in due course.

3.I request that the Government may be pleased to sanction a sum of Rs.2,800/- for the work cited above.

Yours faithfully,

V.R. Rajagopalan
23/12/52

Sir,

Sub: Livestock - District Livestock Farm, South Kanara - Extension of cattle shed.

---

4 above Ref: Government Memorandum No. 145982-P&D.II/52-1 dated 7th January 1953.

---

The sum of Rs.85,500/- sanctioned in G.O.Ms.No. 107, Development, dated 7th January 1950, for the construction of buildings, roads and wells for the District Livestock Farm, South Kanara, has been fully utilised.

2. The work in question has not been executed. The estimated cost of this construction is only Rs. 2,800/- and if the work is entrusted to Public Works Department, it is not likely to be taken up early. To ensure expeditious execution and in view of the urgency for more stalling facilities for the animals, it would be better if the work is done departmentally in consultation with the Public Works Department. Under Article 97 of the Public Works Department Code, the construction of petty buildings up to a limit of Rs.5,000/- shall ordinarily be undertaken by the department requiring them out of the funds placed at their disposal. I also request to be enlightened whether it is the intention of the Government to entrust all works in the farm to Public Works Department irrespective of monetary limit.

Yours faithfully,

for Director of Animal Husbandry,
Madras.

ROC.NO.3934-IV/51. Dated 16th April, 1953.

From

Sri V.R. Rajagopalan, GMVC.,Dip.,Bact.,(Manchester)
Director of Animal Husbandry, Madras.

To

The Deputy Secretary to Government,
Development Department, Madras.

Sir,

Sub: Livestock - District Livestock Farm, South Kanara - Extension of cattle shed
Ref: Government Memorandum No.145982-P&D-11/52-2 dated 14-2-53 and 10-4-53.

...

The estimate amounting to Rs.2,799-8-0 is reported to have been prepared by the farm Superintendent without consulting the Public Works Department authorities taking into account the estimate prepared by the then Public Works Department Supervisor for the existing Malestock shed. The Executive Engineer, South Kanara Division, Mangalore was therefore addressed to scrutinise this estimate. On scrutiny, the Executive Engineer has given a revised estimate for Rs.4,100/- and a sketch showing the plan and section of the building based on the original proposal. A copy of the Executive Engineer's letter No.714, dated 23-3-53 together with the plan and estimate is enclosed.

Yours faithfully,

for Director of Animal Husbandry,
Madras.

vgm.20-4.

Encl:

Copy of letter No.714 dated 23-3-53 from the Executive Engineer South Kanara, Division Mangalore to the Superintendent, District Livestock Farm, Koila South Kanara.

Sub: Buildings - District Livestock Farm, Koila Extensi to male stock shed - estimate scrutiny
Ref: Your letter No.Nil dated 10-3-53.

The Estimate and plan received in your letter cited above are herewith returned after scrutiny with the following remarks

The sketch does not show cross section of the building and hence the height of basement is not discernible either from the plan or from the estimate. Hence a separate neat sketch showing the plan and section of the building proposed is herewith enclos based on your original proposals.

As the detailed estimate is not correct in certain items another fresh detailed estimate based on original proposal is herewith enclosed for reference and guidance during execution.

The fresh estimate provides for laterite masonry pillars 1' 6" square through out in foundation basement and superstructu as against increased section provided for in your estimate. The reduced section will suffice in consideration of load it carries

The basement height of 0' 6" is provided in this estimate a no such detail is available in your plan and estimate.

The cut stone bases of 6" is provided in this estimate as n such detail is available in your plan and estimate.

The position of the door is not indicated in the original plan. However provision has been made for a door in this estimat also as per original estimate and this door is to be located at the end wall of the old building which is extended now, as expre ed by the Superintendent during inspection on 15-3-53 at site.

Drains have been provided at either sides of the shed to lea off the washings of the shed as shown in the fresh plan.

Fresh estimate provides for building up of feeding through over the floor itself as its base as against separate masonry bas provided for the in your estimate.

Plastering has been provided for in trough, drains etc.

Two coats of best coal tar may be given to all wood work, as provided for in this estimate.

The work may be executed as per the provision of this estima which is prepared as per current schedule of rates.

Your office record is herewith enclosed.
